

Specification of top-mounted swing door operator

Item	Parameter	Remark
Working voltage	220VAC±15% 50Hz	
Motor operating voltage	24VDC	
Power of motor	60W	
Rated output torque	34Nm	
Angular speed	40.75°/s	
Maximum opening Angle	±90°	
Maximum length of door leaf	2m (single door)	
Maximum weight of door leaf	200Kg	
Thermal protection on motor winding	F Class 155℃	
Operating frequency	Continuous running below 70℃	
Operating ambient temperature	-25-70℃	
Working environment	Indoor or sheltered outdoor environments	
Running noise	≤60dB	
Temperature rise	≤15℃	
Weight of equipment packaging	5.3kg	
Body size (length * width * thickness)	330*85*84.4mm	
Packing size	530*180*110mm
